DNR-SPS

Ms. Wasson,

I am sending you this letter in response to our prior conversations earlier this month. (As you know, my wife and myself, are the owners of the vessel "The KED", located in Bremerton's

At the time that we purchased the "KED", we were living at the Port Washington Marina. During our time at the Port Washington Marina, we became friends with many people and these people at various times had their boats hauled out of the water for repairs AND such and by a certain Mr. Bill Sisko for a fee that was reasonable.

Mr. Sisko, would either haul their boats up to his upper yard or secure them on the beach until they had completed the repairs needed. Mr. Sisko also stored vessels for people in his upper yard which, has now come to light they were also stored on a certain Mr. Paul McConkey's property. Mr. Sisko naturally charged a storage fee for these boats.

The "KED" is a 158' foot vessel, and being such, it is difficult to find moorage for a boat of that size. During the time that we were looking for a place to put the vessel, we came to have a conversation

(2)

with Mr Sesko in which Mr. Sesko offered to secure our vessel to his "Dock" that is located below his property and which he informed us was owned by him, including the water rights pertaining to this Dock.

Mr. Sesko stated that he would only charge us \$200.00 per month to moor our vessel to his Dock. We at that time agreed to pay Mr. Sesko \$200.00 per month to moor our vessel to his Dock.

We brought our vessel over and moored it to Mr. Sesko's Dock. At the time that we brought our vessel over we also brought a barge that was included in the purchase of the keel. This barge was valued at 3,000 Dollars AND Mr. Sesko stated that he wanted the Barge and he would take the barge as 3,000 in payment against the moorage. So we agreed and Mr. Sesko then sold the barge for a profit.

After the 3,000 had been expended for our rent we began to pay Mr. Sesko in cash for our rent. During this time, my wife and I had a son die of brain cancer and we became behind in our rent to Mr. Sesko at this time he stated that we either had to pay him the rent owed or we would have to move our vessel.

At this Mr. Sesko agreed to take our box van \$2,000 in lieu of 2,000 against our rent.

(3)

Through the years it is my estimation that we have paid Mr. Sesko 7-8 Thousand dollars in rent for the ked. IN the recent months it has now become known to us that Mr. Sesko has chared us rent for these past 3 1/2 years ON Property that is owned not by him but by the D.N.R.

I assure you that we are trying to do everything in our power to comply with all that you need from us. We are very upset by all of these events that we had no knowledge of.

At this present time, Mr. Sesko has tied 3 boats to our vessel and to my knowledge he is charging "Rent" for at least one of them.

PS AND on a personal note
Thank you Courtney
for all your help AND
SUPPORT.

Please call if you
need more information
we would be more than
glad to help.

Thank you!
